

Section 4.1 Purpose

The provisions of this Article provide enabling authority and standards for the submission, review and approval of applications for planned unit developments (PUDs), pursuant to the Michigan Zoning Enabling Act. It is the intent of the Article to authorize the use of PUD regulations to permit flexibility in the regulation of land development to encourage beneficial innovation in land use and variety in design, layout, and type of buildings and structures constructed; achieve economy and efficiency in the use of land, natural resources, energy, and the provision of public services and utilities; and encourage useful open space, and provide better housing, employment, and shopping opportunities. The provisions of this Article are not intended as a device for ignoring this Ordinance or the planning upon which it is based. To this end, the provisions of this Article are intended to result in land use development substantially consistent with the planned development pattern for the Township according to the Lake Township Master Plan, with modifications and departures from Ordinance requirements made in accordance with standards provided in this Article to insure appropriate, fair, and consistent decision making.
