

Section 7.4 Private Landing Strips

A. Compliance with Table 3-4: See Table 3-4 for standards pertaining to minimum lot area, width, frontage, and yard setbacks, and maximum building height and lot coverage, except as follows:

1. Runways, hangers, maintenance buildings, and any other structures and buildings associated with the landing strip shall be located a minimum of one-hundred fifty (150) feet from all lot lines.

B. Additional Standards and Requirements:

1. Runways shall be twelve hundred (1,200) feet in land length and fifty (50) feet in width, with a clear approach in each direction of 10:1 (horizontal to vertical) for a distance of ten thousand (10,000) feet, except where the applicant can demonstrate that the intended type of aircraft to be used has standard operational characteristics that make such standards excessive such as in the case of "ultra-light" aircraft.
2. Approval of landing strips shall not be made prior to the receipt of the Federal Aviation Authority's review of the proposed landing strip.
